
Joint Press Release

February 4, 2021

Pre-Registration Opens Again for the Regional Vaccination SubHUB as the State Allocates 3,000 Additional Vaccines

The state allocated 3,000 vaccines to the subHUB this week. Online pre-registration has reopened and available at www.localevent.info. Once pre-registered, you will be contacted by an agent, in the order the form was received, to set up a vaccine time slot. The Google hosted form allows you to enter your information. If there is a large number of people attempting to fill out the Google form at the same time, be aware it may take time and/or the page may need to be refreshed. Pre-registration will reopen when all those on the list have been vaccinated. This cycle will continue as long as the state continues to allocate vaccines to the subHUB.

Please note that the phone number from the subHUB could potentially be listed as SPAM in the caller ID if your phone has such a filter. Calls may be listed as 979- or 800- on the caller ID. We are urging everyone to answer the call. If it is a call from the subHUB, then the agent will immediately identify themselves as such. If the call turns out to be a true SPAM call, simply hang up and do not engage with the recorded message or caller.

Updates about the subHUB are made often and can be found at the following locations:

- www.localevent.info
- Washington County Office of Emergency Management Facebook page
- City of Brenham Facebook page
